

LAETITIA*

Oorsprong: RSA, deur LNR-INFRUITEC geselekteer uit nageslag van oopbestuifde Golden King. In 1985 vrygestel.

Origin: RSA, selected ARC-INFRUITEC from progeny of open pollinated Golden King. Released in 1985.

BOOM

Kouebehoefte: laag
Groeikrag: medium sterk
Groeiwyse: half-regop
Volblomdatum: einde September
Verenigbaarheid: Songold, Casselman
Produksie: baie goed

VRUG

Oesdatum: middel tot einde Januarie
Massa: 70 g
Vorm: rond-langwerpig, vlak naat en stingelholte
Skilkleur: helderrooi met baie wit lentiselle
Vleiskleur: oranje-geel
Smaak: baie goed
Tekstuur: stewig en smeltend
Pitgeaardheid: half-los
Opbergingsvermoë: goed vir 4 weke by dubbeltemperatuur

ALGEMEEN

Bestand teen *Xanthomonas*-vlek, maar redelik gevoelig vir *Monilinia laxa*.

***Planttelersregte:** LNR-INFRUITEC

TREE

Chilling requirement: low
Vigour: medium strong
Growth habit: semi-upright
Full bloom date: late September
Compatibility: Songold, Casselman
Production: very good

FRUIT

Harvest date: middle to late January
Mass: 70 g
Shape: round-oblong, shallow suture and stem cavity
Skin colour: bright red with many white lenticells
Flesh colour: orange-yellow
Taste: very good
Texture: firm and melting
Stone: semi-free
Storage ability: good for 4 weeks at dual temperature

GENERAL

Resistant to *Xanthomonas* spot but reasonably sensitive to *Monilinia laxa*.
